REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors World Relief Corporation of National Association of Evangelicals Baltimore, Maryland

We have audited the accompanying consolidated financial statements of World Relief Corporation of National Association of Evangelicals ("World Relief") which comprise the consolidated statement of financial position as of September 30, 2018, and the related consolidated statements of activities and changes in net assets, and of cash flows for the year then ended and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements of the entity's preparation and fair presentation of the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of World Relief as of September 30, 2018, and the changes in its net assets, and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited World Relief's 2017 consolidated financial statements and our report dated March 28, 2018 expressed an unqualified opinion on those audited consolidated financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2017, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018 And 2017

(1) SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND PURPOSE

World Relief Corporation of National Association of Evangelicals ("World Relief") is a not-forprofit, global charitable organization that seeks to overcome violence, poverty and injustice. Through love in action, we bring hope, healing and restoration to millions of the world's most vulnerable women, men and children through vital and sustainable programs in disaster response, health and child development, economic development and peacebuilding, as well as refugee and immigration services in the U.S. For 75 years, we've partnered with churches and communities, currently across more than 20 countries, to provide relief from suffering and help people rebuild their lives.

World Relief is a wholly owned subsidiary of The National Association of Evangelicals, a not-forprofit religious organization. The consolidated financial statements include the activity of a microenterprise entity in the Democratic Republic of Congo (Hekima) in which World Relief is a 59.28% owner.

Additionally, World Relief entered into a board-approved significant strategic partnership with its Europe-based counterpart World Relief Germany (formerly Partner Aid). This collaboration has realized an expansion of World Relief's programmatic reach.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of World Relief and one majority owned microenterprise entity. Non-controlling interest in this microenterprise entity is recorded and included in net assets. Substantially all intercompany accounts and transactions have been eliminated.

ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

CONCENTRATION OF CREDIT AND OTHER RISKS

World Relief operates in foreign countries, many of which do not have stable governments or economies. To the extent negative events occur in these countries, World Relief may not be able to recover its assets or remove its cash from these countries. Net assets of World Relief's overseas ministry programs were approximately \$7.3 million and \$5.1 million, for the years ended September 30, 2018 and 2017, respectively, including \$1.6 million and \$1.3 million in 2018 and 2017, respectively relating to a majority-owned microenterprise entity.

Loans receivable are in connection with World Relief's microenterprise development and agricultural activities *(See Note 6)*. Although collateral in the form of land titles is required on most of the loans, the loans are exposed to the risk of default on repayment. World Relief manages this risk through its underwriting process.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

September 30, 2018 And 2017

World Relief occasionally maintains deposits in excess of federally insured limits. The risk is managed by monitoring the financial institutions in which deposits are made. World Relief had approximately \$4.3 million and \$2.7 million of cash and cash equivalents held in foreign banking institutions as of September 30, 2018 and 2017. The funds held in foreign countries are uninsured.

FOREIGN CURRENCY TRANSLATION

World Relief has foreign branch offices in many countries. Assets and liabilities for these foreign branch offices and the majority-owned microenterprise entities are translated at the rates of exchange at the balance sheet date while income statement accounts are translated at the average exchange rates in effect during the period. The effect of such translation adjustments for the years ended September 30, 2018 and 2017 was an increase to net assets of \$189,728 and \$47,851, respectively.

INCOME TAXES

World Relief is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (the "*Code*") and has been classified as a public charity under Section 509(a)(1) of the Code.

The for-profit microenterprise entities included in the accompanying consolidated financial statements pay taxes in accordance with their respective country's applicable rates and current tax expense is recorded for these amounts. Deferred tax assets and liabilities are recognized for the future consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and the related tax bases.

Management has reviewed the tax positions for each of the open tax years (years ended September 30, 2015 - 2017) or expected to be taken in World Relief's September 30, 2018 tax return and has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements.

CONTRIBUTIONS TO INDEPENDENT ENTITIES

It is World Relief's practice that its overseas ministry programs may eventually become independent entities or be transferred to like-minded organizations. When the decision to transfer such assets is approved, World Relief records a liability for the net assets to be transferred and a corresponding charge to operations for the contribution.

CASH AND CASH EQUIVALENTS

World Relief considers cash and cash equivalents to include currency on hand, demand deposits with banks and short-term investments with maturities of less than three months when purchased.

INVESTMENTS

World Relief records investments in securities at fair market value with the resulting gains and losses reported in the statement of activity. The fair market value of investments traded on a securities exchange is determined based on quoted market prices for those investments.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

September 30, 2018 And 2017

MICROENTERPRISE LOANS RECEIVABLE

Loans receivable are carried at their estimated collectible amounts. Interest income on loans receivable is recognized using the interest method. Interest income on impaired loans is recognized as cash is collected or on a cost-recovery basis.

Loans receivable are periodically evaluated for collectibility based on past credit history with clients and their current financial condition. Provisions for losses on loans receivable are determined on the basis of loss experience, known and inherent risks in the loan portfolio, the estimated value of underlying collateral, and current economic conditions. Loans are written off when they remain unpaid six months after maturity date, or when, in management's judgment, there is no prospect of recovery after taking into account the realizable value of collateral, if any.

PROPERTY AND EQUIPMENT

Property and equipment are capitalized at cost and depreciated over their estimated useful lives on the straight-line basis (buildings -29 years, computer, office and other equipment -3-8 years and vehicles -5 years).

World Relief requires that long-lived assets and certain identifiable intangible assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of assets may not be recoverable. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount at which the carrying value of the assets exceeds the estimated fair value. Assets to be disposed of are reportable at the lower of the carrying amount or fair value, less the costs to sell.

World Relief receives various federal, state, city and private grants and contracts relating to refugee immigration, relief and disaster response. Property and equipment purchased through grants/ contracts are expensed in the period purchased. The property and equipment is retained by World Relief or returned to the grantor based upon the grant/contract.

NET ASSETS

Net assets, revenue, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of World Relief and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted Net Assets – Net assets that are subject to donor-imposed restrictions.

CONTRIBUTIONS

World Relief reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are classified to unrestricted net assets and reported in the statement of activities as *"net assets released from restrictions."*

September 30, 2018 And 2017

GIFTS IN-KIND AND VOLUNTARY SERVICES

GIFTS IN-KIND

World Relief receives in-kind goods for resettled refugees and for emergency interventions and other overseas programs. These resources are provided by refugee sponsors, churches, individuals and organizations. The value of in-kind contributions made to World Relief was \$1,030,179 in 2018 and \$1,647,052 in 2017. In addition, refugee sponsors and others often provide goods and services directly to resettled refugees; however, the value of these goods and services is not included in the financial statements.

VOLUNTARY SERVICES

Worldwide, volunteers account for a majority of the World Relief workforce, greatly multiplying the number of people reached by the organizations' global ministries. In many cases volunteers serve on the front lines of World Relief's programs, partnering with staff to increase the impact of services given. Approximately 100,000 people volunteered with World Relief in each of the years 2018 and 2017. The value of these non-paid workers is not reflected in the financial statements.

U.S. GOVERNMENT GRANTS

World Relief has various grants with federal, state and local governments. World Relief generally recognizes revenue under these contracts when the related expenses are incurred (exchange transactions).

FUNCTIONAL ALLOCATION OF EXPENSES

World Relief's costs of program and support activities have been summarized on a functional basis in the statement of activities and changes in net assets. The costs of certain multipurpose activities have been allocated based on level of effort among program and support ministry categories.

PRIOR YEAR INFORMATION

The financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such comparative information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such comparative information should be read in conjunction with World Relief's audited financial statements for the year ended September 30, 2017, from which the summarized information was derived.

RECLASSIFICATIONS

Certain reclassifications were made to the 2017 financial statements to conform to the 2018 presentation.

ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED

In August 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-14, Presentation of Financial Statements of Not-for-Profit Entities (Topic 958), intended to improve financial reporting for not-for-profit entities. The ASU will reduce the current three classes of net assets into two: with and without donor restrictions. The change in each of the classes of net assets must be reported on the Statement of Activities and Change in Net Assets. The ASU also requires various enhanced disclosures around topics such as board designations, liquidity, functional classification of expenses, investment expenses, donor restrictions, and underwater endowments. The ASU is effective for years beginning after December 15, 2017. The ASU should be applied on a retrospective basis in the year the ASU is first applied. While the ASU will change the presentation of World Relief's financial statements, it is not expected to alter World Relief's reported financial position. World Relief will adopt the new ASU in its 2019 fiscal year.

In June 2018, the FASB issued ASU 2018-08, Not-for-Profit Entities (Topic 958), to improve the scope and the accounting guidance for contributions received and contributions made. The amendments will assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) within the scope of the Topic, or as exchange (reciprocal) transactions subject to other guidance and (2) determining whether a contribution is conditional which effects the timing of revenue recognition. The ASU is effective for private entities for fiscal years beginning after December 15, 2018. The ASU should be applied on a modified prospective basis, in the first set of financial statements following the effective date the amendments should be applied to agreements that are either not completed as of the effective date or entered into after the effective date. World Relief plans to adopt the new ASU at the required implementation date.

In 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The ASU changes the accounting treatment for operating leases by recognizing a lease asset and lease liability at the present value of the lease payments in the statement of financial position and disclosing key information about leasing arrangements. The ASU is effective for private entities for fiscal years beginning after December 15, 2019. Early adoption is permitted. The ASU should be applied at the beginning of the earliest period presented using a modified retrospective approach. World Relief plans to adopt the new ASU at the required implementation date.

(2) INVESTMENTS

At September 30, 2018 and 2017, investments consisted of the following:

MARKETABLE SECURITIES

(3) FAIR VALUE OF FINANCIAL INSTRUMENTS

World Relief utilized various methods to measure the year-end value of its investments. Generally accepted accounting principles establish a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are described below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that World Relief has the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing World Relief's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The inputs methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The summary of inputs used to value World Relief's investments as of September 30, 2018 and 2017 are as follows:

			2018	
Turan dan sa da	<u>Total</u>	Level 1 Quoted <u>Prices</u>	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Investments Certificate of Deposit	<u>\$694,328</u>	<u>\$ </u>	<u>\$694,328</u>	<u>\$</u>

September 30, 2018 And 2017

The changes in investments measured at fair value for which World Relief used Level 3 inputs to determined fair value are as follow:

Balance, September 30, 2017	\$ 7,779
Sales / Redemptions	<u>(7,779</u>)
Balance, September 30, 2018	<u>\$ </u>

(4) CONTRIBUTIONS RECEIVABLE

As of September 30, 2018 and 2017, contributors to World Relief have made unconditional promises to give as follows:

	<u>2018</u>	<u>2017</u>
Within one year	\$530,868	\$ 250,000
One to five years	334,500	1,000,000
Gross contributions receivable	865,368	1,250,000
Less: Present value discount	50,000	50,000
Total contributions receivable	<u>\$815,368</u>	<u>\$1,200,000</u>

(5) MICROENTERPRISE LOANS RECEIVABLE

World Relief operates microenterprise development activities through microfinance institutions. These community-based loan programs are designed to assist individuals without access to normal banking resources with loans for the development of small business enterprises. These loans consist of funds lent to entrepreneurial individuals, solidarity groups, and community banks for the purpose of furthering economic development in the communities served.

Microfinance loans receivable, net at September 30, 2018 and 2017 consist of the following:

	<u>2018</u>	<u>2017</u>
Microenterprise loans		
(net of allowance of \$170,591 in 2018 and \$99,880 in 2017)	<u>\$2,439,141</u>	<u>\$2,857,070</u>

A summary of the activity in the allowance for loan losses for the years ended September 30, 2018 and 2017 is as follows:

	<u>2018</u>	<u>2017</u>
Balance at beginning of year	\$ 99,880	\$ 55,740
Provision for loan losses	74,447	72,572
Loans written off	<u>(3,736</u>)	(28,432)
	<u>\$170,591</u>	<u>\$ 99,880</u>

Certain microenterprise loan programs have either a mandatory or a voluntary savings component. This savings requirement, which is retained by the local World Relief microfinance institution and can be applied towards balances in default, was \$678,552 and \$614,678, as of September 30, 2018 and 2017, respectively net of discontinued operations and is included in other liabilities in the Statement of Financial Position.

September 30, 2018 And 2017

RECEIVABLE - OTHER

Included in Receivable – Other on the Statement of Financial Position is World Relief's beneficial interest in two trusts that were formed as a result of the bankruptcy of a former agricultural loan program partner. Assets of the trusts are primarily made up of land that is currently being marketed for sale. During the year ended September 30, 2017, World Relief wrote down the value of its interest by \$281,500 in connection with the trust committee's decision to reduce the asking price of the properties held. As of September 30, 2018, and 2017, the value of World Relief's interest in these two trusts was approximately \$499,000 and \$519,000, respectively.

(6) MINORITY INTEREST IN NET ASSETS

Other investments represent World Relief's investment in microfinance institutions. World Relief's investment in Urwego Opportunity Bank ("UOB"), a for-profit bank extending services to the poor of Rwanda was 0.8% as of September 30, 2018 and 2017, and as such, is carried at cost. World Relief had a 24.1% investment ownership in KREDIT, a for-profit bank for the poor in Cambodia, until its sale in 2018. For the years ended September 30, 2018 and 2017, World Relief has a 44.3% investment ownership in Turame Community Bank ("Turame"), a for profit microfinance institution extending services to the poor of Burundi, and, as required, carries this investment using the equity method of accounting where World Relief records its share of Turame's net profit or loss each period. The carrying amount of each investment at September 30, 2018 and 2017 is as follows:

	<u>2018</u>	<u>2017</u>
UOB	\$ 49,030	\$ 49,030
Turame Community Bank	618,946	669,763
KREDIT		6,634,451
	<u>\$ 667,976</u>	<u>\$7,353,244</u>

(7) PLANT AND EQUIPMENT

The cost of property and equipment is as follows:

	<u>2018</u>	<u>2017</u>
Land	\$ 26,668	\$ 26,670
Buildings	1,620,938	1,621,125
