REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors World Relief Corporation of National Association of Evangelicals Baltimore, Maryland

We have audited the accompanying consolidated statement of financial position of World Relief Corporation of National Association of Evangelicals ("World Relief") as of September 30, 2011, and the related consolidated statements of activities and changes in net assets, of cash flows and of functional expenses for the year then ended. These consolidated financial statements are the responsibility of World Relief's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. The prior year comparative information has been derived from World Relief's 2010 financial statements prior to the restatement of net assets described in Note 14 to the financial statements and, in our report dated January 20, 2011, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of World Relief Corporation of National Association of Evangelicals as of September 30, 2011, and the changes in its net assets, its cash flows and its functional expenses for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

September 30, 2011 and 2010

(1) SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND PURPOSE

World Relief Corporation of National Association of Evangelicals ("World Relief") is a not-for-profit, charitable organization and a wholly owned subsidiary of The National Association of Evangelicals, a not-for-profit religious organization. World Relief is a 100% shareholder in two microenterprise entities in Kosovo (BZMF) and Democratic Republic of Congo (Hekima), and is a 78% and 79% shareholder in microenterprise entities located in Burundi (Turame) and Cambodia (CREDIT), respectively.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of World Relief and the four microenterprise entities. For the microenterprise entities for which World Relief owns less than 100%, non-controlling interest is recorded and included in net assets. Substantially all intercompany accounts and transactions have been eliminated.

ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

SUBSEQUENT EVENTS

Subsequent events after the statement of financial position date through the date that the financial statements were available for issuance, January 24, 2012, have been evaluated in the preparation of the financial statements.

CONCENTRATION OF CREDIT AND OTHER RISKS

World Relief operates in foreign countries, many of which do not have stable governments or economies. To the extent negative events occur in these countries, World Relief may not be able to recover its assets or remove its cash from these countries. Net assets of World Relief's overseas ministry programs were approximately \$18.9 million and \$16.9 million, including \$14.9 million and \$13.9 million, which includes non-controlling interests, relating to the majority-owned microenterprise entities, for the years ended September 30, 2011 and 2010, respectively. Net assets of the majority-owned microenterprise entities and held for sale and discontinued operations amounted to approximately \$10.9 million and \$10.8 million, including non-controlling interest, as of September 30, 2011 and 2010, respectively.

Loans receivable are in connection with World Relief's microenterprise development and agricultural activities (*See Note 5*). Although collateral in the form of land titles is required on most of the loans, the loans are exposed to the risk of default on repayment. World Relief manages this risk through its underwriting process.

World Relief occasionally maintains deposits in excess of federally insured limits. The risk is managed by monitoring the financial institutions in which deposits are made.

NOTES TO FINANCIAL STATEMENTS – (Continued)

September 30, 2011 and 2010

FOREIGN CURRENCY TRANSLATION

World Relief has foreign branch offices in many countries. Assets and liabilities for these foreign branch offices and the majority-owned microenterprise entities are translated at the rates of exchange at the balance sheet date while income statement accounts are translated at the average exchange rates in effect during the period. The effect of such translation adjustments, excluding the amount related to discontinued operations, for the year ended September 30, 2011 was an increase to net assets of \$321,988. For the year ending September 30, 2010 such adjustments resulted in a decrease to net assets of \$157,353.

INCOME TAXES

World Relief is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (the "Code") and has been classified as a public charity under Section 509(a)(1) of the Code.

The for-profit microenterprise entities included in the accompanying consolidated financial statements pay taxes in accordance with their respective country's applicable rates and current tax expense is recorded for these amounts. Deferred tax assets and liabilities are recognized for the future consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and the related tax bases.

Management has reviewed the tax positions for each of the open tax years (years ended September 30, 2008 - 2010) or expected to be taken in World Relief's September 30, 2011 tax return and has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements.

CONTRIBUTIONS TO INDEPENDENT ENTITIES

It is World Relief's practice that its overseas ministry programs may eventually become independent entities or be transferred to like-minded organizations. When the decision to transfer such assets is approved, World Relief records a liability for the net assets to be transferred and a corresponding charge to operations for the contribution.

CASH AND CASH EQUIVALENTS

World Relief considers cash and cash equivalents to include currency on hand, demand deposits with banks and short-term investments with maturities of less than three months when purchased.

INVESTMENTS

World Relief records investments in securities at fair market value with the resulting gains and losses reported in the statement of activity. The fair market value of investments traded on a securities exchange is determined based on quoted market prices for those investments.

NOTES TO FINANCIAL STATEMENTS – (Continued)

September 30, 2011 and 2010

MICROENTERPRISE LOANS AND AGRICULTURAL LOANS RECEIVABLE

Loans receivable are carried at their estimated collectible amounts. Interest income on loans receivable is recognized using the interest method. Interest income on impaired loans is recognized as cash is collected or on a cost-recovery basis.

Loans receivable are periodically evaluated for collectibility based on past credit history with clients and their current financial condition. Provisions for losses on loans receivable are determined on the basis of loss experience, known and inherent risks in the loan portfolio, the estimated value of underlying collateral, and current economic conditions. Loans are written off when they remain unpaid six months after maturity date, or when, in management's judgment, there is no prospect of recovery after taking into account the realizable value of collateral, if any.

PROPERTY AND EQUIPMENT

Property and equipment are capitalized at cost and depreciated over their estimated useful lives on the straight-line basis (buildings -29 years, computer, office and other equipment -3-8 years and vehicles -5 years).

World Relief receives various federal, state, city and private grants and contracts relating to refugee immigration, relief and disaster response. Property and equipment purchased through grants/contracts are expensed in the period purchased. The property and equipment is retained by World Relief or returned to the grantor based upon the grant/contract.

NET ASSETS

Net assets, revenue, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of World Relief and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted Net Assets – Net assets that are subject to donor-imposed restrictions.

CONTRIBUTIONS

World Relief reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are classified to unrestricted net assets and reported in the statement of activities as "net assets released from restrictions."

NOTES TO FINANCIAL STATEMENTS – (Continued)

September 30, 2011 and 2010

GIFTS IN-KIND AND VOLUNTARY SERVICES

GIFTS IN-KIND

World Relief receives in-kind goods for resettled refugees and for emergency interventions and other overseas programs. These resources are provided by refugee sponsors, churches, individuals and organizations. The value of in-kind contributions made to World Relief was \$680,352 in 2011 and \$635,252 in 2010. In addition, refugee sponsors and others often provide goods and services directly to resettled refugees; however, the value of these goods and services is not included in the financial statements.

VOLUNTARY SERVICES

Worldwide, volunteers account for approximately 95% of the World Relief workforce, greatly multiplying the number of people reached by the organizations' global ministries. In many cases volunteers serve on the front lines of World Relief's programs, partnering with staff to increase the impact of services given. More than 32,000 people volunteered with World Relief in each of the years 2011 and 2010. The value of these non-paid workers is not reflected in the financial statements.

U.S. GOVERNMENT GRANTS

World Relief has various grants with federal, state and local governments. World Relief generally recognizes revenue under these contracts when the related expenses are incurred (exchange transactions).

FUNCTIONAL ALLOCATION OF EXPENSES

World Relief's costs of program and support activities have been summarized on a functional basis in the statement of activities and changes in net assets. The costs of certain multipurpose activities have been allocated based on level of effort among program and support ministry categories.

PRIOR YEAR INFORMATION

The financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such comparative information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such comparative information should be read in conjunction with World Relief's audited financial statements for the year ended September 30, 2010, from which the summarized information was derived.

RECLASSIFICATION

Certain reclassifications were made to the prior year financial statements to conform to the current year presentation.

(2) ASSETS AND LIABILITIES OF BUSINESSES HELD FOR SALE AND DISCONTINUED OPERATIONS

ASSETS AND LIABILITIES OF THE ENTITY HELD FOR SALE

In September 2011, World Relief entered into an agreement to sell a portion of its microfinance entity, CREDIT, to Phillips MFIs Pte Ltd, a company incorporated under the laws of Singapore, for approximately \$3,200,000 in cash. The sale is pending the approval of the Ministry of Commerce of Cambodia and is expected to take place in the beginning of 2012. As a result of the sale, World Relief's ownership interest will decrease from 79.04% to 32.57%. World Relief will account for their continued interest in CREDIT under the equity method. World Relief expects to recognize a gain in 2012 from the sale. The carrying amount of the major classes of assets and liabilities included in the sale as of September 30, 2011 and 2010 is as follows:

<u>Assets</u>	<u>2011</u>	<u>2010</u>

DISCONTINUED OPERATIONS

In July 2011, World Relief commenced plans to sell its wholly owned microfinance entity, BZMF. World Relief expects to sell all of its ownership in BZMF within a year. In connection with the plans to sell BZMF, World Relief recorded its carrying value of BZMF at the lower of cost or fair market value and recognized an impairment loss of \$1,208,477. The operating results of BZMF have been reclassified as discontinued operations. Assets and liabilities of discontinued operations as of September 30, 2011 and 2010 are as follows:

<u>Assets</u>	<u>2011</u>	<u>2010</u>

(4) FAIR VALUE OF FINANCIAL INSTRUMENTS

World Relief utilized various methods to measure the year-end value of its investments. Generally accepted accounting principles establish a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are described below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that World Relief has the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing World Relief's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The inputs methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The summary of inputs used to value World Relief's investments as of September 30, 2011 are as follows:

			2011	
Towards	<u>Total</u>	Level 1 Quoted <u>Prices</u>	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs

(5) MICROENTERPRISE LOANS AND AGRICULTURAL LOANS RECEIVABLE

World Relief operates microenterprise development activities through microfinance institutions. These community-based loan programs are designed to assist individuals without access to normal banking resources with loans for the development of small business enterprises. These loans consist of funds lent to entrepreneurial individuals, solidarity groups, and community banks for the purpose of furthering economic development in the communities served. Agricultural loans are granted for the purpose of improving the delivery of agricultural services to small farmers in Nicaragua and Haiti.

Microfinance loans receivable, excluding amounts that have been reclassified for entities which are held for sale, and agricultural loans receivable, net at September 30, 2011 and 2010 consist of the following:

	<u>2011</u>	<u>2010</u>
Microenterprise loans (net of allowance of \$187,602 in 2011 and \$24,985 in 2010)	\$ 2,715,634	\$ 2,931,255
Loans to local Nicaraguan and Haitian agricultural loan partners (net of allowance of \$145,145 in 2011 and \$144,970 in 2010)	1,915,716	2,048,195
	<u>\$4,631,350</u>	<u>\$4,979,450</u>
Microenterprise loan balances in each location are as follows:		
	<u>2011</u>	<u>2010</u>

Hekima	1,353,073	1,128,324
United States		440
	<u>\$2,715,634</u>	<u>\$ 2,931,255</u>

A summary of the activity in the allowance for loan losses for the years ended September 30, 2011 and 2010 is as follows:

	<u>2011</u>	<u>2010</u>
Balance at beginning of year	\$ 169,955	\$ 153,504
Provision for loan losses	176,582	34,031
Loans written off	(13,790)	(17,580)
	<u>\$ 332,747</u>	<u>\$169,955</u>

At September 30, 2010, agricultural loans in the amount of \$300,000 were approved to be transferred to a local nonprofit organization.

Certain microenterprise loan programs have either a mandatory or a voluntary savings component. This savings requirement, which is retained by the local World Relief microfinance institution and can be applied towards balances in default, was \$1,010,031 and \$1,173,342, as of September 30, 2011 and 2010, respectively and is included in other liabilities in the Statement of Financial Position.

(6) MINORITY INTEREST IN NET ASSETS

Other investments represent World Relief's investment in a microfinance financial institution, Urwego Opportunity Bank ("UOB"), a for-profit bank extending services to the poor of Rwanda. World Relief's investment was 17% and 20.5% as of September 30, 2011 and 2010, respectively, in UOB. The carrying amount of the investment was \$883,449 and \$884,249 as of September 30, 2011 and 2010, respectively. World Relief had been carrying this investment at equity until its investment percentage decreased below 20%; at such time, the equity amount became the carrying value.

(7) PLANT AND EQUIPMENT

The cost of property and equipment is as follows:

	<u>2011</u>	<u>2010</u>

(14) RESTATEMENT

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-07 which amended ASC-958, "Not-for-Profit Entities – Consolidation". The update amended accounting and reporting requirements for an organization's non-controlling interest in subsidiaries. ASU 2010-07 clarified that a non-controlling interest in a subsidiary is an ownership interest in the consolidated entity which should be reported as net assets in the consolidated financial statements. This update also changed the way the consolidated statement of activities is prepared. It requires consolidated net income to be reported at amounts attributable to both the controlling and non-controlling interests.

In accordance with this amendment, World Relief presents its non-controlling interest in their microenterprise entities as of September 30, 2011 and 2010 as unrestricted net assets. Also, for the years ended September 30, 2011 and 2010, World Relief's consolidated change in net assets includes the net income of the non-controlling interest of the microenterprise entities.

The cumulative effect of restating 2009 beginning net assets due to the implementation of ASU 2010-07 was as follows:

	Temporarily		
	Unrestricted	Restricted	<u>Total</u>
Net assets, September 30, 2009 as previously reported	\$ 16,449,349	\$ 1,251,157	\$ 17,700,506
Recording of non-controlling interest in majority held			
microfinance entities	1,090,373		1,090,373
Net assets, September 30, 2009, as restated	\$ 17,539,722	\$1,251,157	\$18,790,879

The effect of these restatements on the 2010 financial statements was to increase the non-controlling interest of the unrestricted net assets by \$250,797.
