OUR CURRICULUM

Connect Language Center ESL courses follow 9 levels of the Common European Framework of Reference for Languages: A1 to C1. When students finish a level, they have an international standard as a reference for their progress. Students may enter the program as beginner, intermediate, or advanced learners, and may take these certificates to other academic institutions or employers around the world who recognize this standard.

As part of our enrollment process, each student takes a placement test to determine their level. Then, on the first week of class, students take an in-class diagnostic to identify what topics within their level should be priority over the 10-week course. This process ensures that no time is wasted on content students already know.

OUR APPROACH

Connect Language Center follows the approach of Communicative Language Teaching. This approach puts interactive use of English at the center of classroom activity. Students can expect to spend roughly 70% of the average class practicing their English with their teacher and other classmates.
