REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

**Board of Directors
World Relief Corporation of
National Association of Evangelicals
Baltimore, Maryland**

We have audited the accompanying financial statements of World Relief Corporation of National Association of Evangelicals ("World Relief") which comprise the statement of financial position as of September 30, 2021, and the related statements of activities and changes in net assets, functional expenses and of cash flows for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of World Relief as of September 30, 2021, and the changes in its net assets, and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited World Relief's 2020 financial statements and our report dated February 5, 2021 expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2020, is consistent, in all material respects, with the audited financial statements from which it has been derived.

WORLD RELIEF CORPORATION OF NATIONAL ASSOCIATION OF EVANGELICALS

NOTES TO FINANCIAL STATEMENTS

September 30, 2021 And 2020

(1) SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND PURPOSE

World Relief Corporation of National Association of Evangelicals (***“World Relief”***) is a not-for-profit, global Christian humanitarian organization that brings sustainable solutions to the world’s greatest problems – disasters, extreme poverty, violence, oppression, and mass displacement. For over 75 years, we’ve partnered with churches and community leaders in the U.S. and abroad to bring hope, healing and transformation to the most vulnerable.

World Relief is a wholly owned subsidiary of The National Association of Evangelicals, a not-for-profit religious organization.

DECONSOLIDATION

Pursuant to a meeting of the shareholders of IMF Hekima, a microenterprise entity in the Democratic Republic of the Congo, it was resolved to issue additional capital and sell shares amongst existing shareholders with an effective date of September 30, 2020. As a result of this resolution, World Relief’s ownership interest in IMF Hekima was reduced from 59.28% to 49.95%. As such, World Relief deconsolidated IMF Hekima as of September 30, 2020.

World Relief has elected to account for its non-controlling investment in IMF Hekima at fair value (***Note 6***) using the equity method of accounting beginning on September 30, 2020. World Relief uses the equity method of accounting when it has the ability to exercise significant influence, but not control, over the operating and financial policies of the investee.

ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

CONCENTRATION OF CREDIT AND OTHER RISKS

World Relief operates in foreign countries, many of which do not have stable governments or economies. To the extent negative events occur in these countries, World Relief may not be able to recover its assets or remove its cash from these countries. Net assets of World Relief’s overseas ministry programs were approximately \$4.4 million and \$5.3 million as of the year ended September 30, 2021, and 2020, respectively.

World Relief occasionally maintains deposits in excess of federally insured limits. The risk is managed by monitoring the financial institutions in which deposits are made. World Relief had approximately \$5.4 million and \$4.8 million of cash and cash equivalents held in foreign banking institutions as of September 30, 2021 and 2020. The funds held in foreign countries are uninsured.

WORLD RELIEF CORPORATION OF NATIONAL ASSOCIATION OF EVANGELICALS

NOTES TO FINANCIAL STATEMENTS – (Continued)

September 30, 2021 And 2020

FOREIGN CURRENCY TRANSLATION

World Relief has foreign branch offices in many countries. Assets and liabilities for these foreign branch offices and the majority-owned microenterprise entities are translated at the rates of exchange at the balance sheet date while income statement accounts are translated at the average exchange rates in effect during the period. The effect of such translation adjustments was an increase to net assets of approximately \$278,000 and \$12,000 for the years ended September 30, 2021, and 2020, respectively.

INCOME TAXES

World Relief is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (the “**Code**”) and has been classified as a public charity under Section 509(a)(1) of the Code.

Management has reviewed the tax positions for each of the open tax years (years ended September 30, 2018 - 2020) or expected to be taken in World Relief’s September 30, 2021 tax return and has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements.

CONTRIBUTIONS TO INDEPENDENT ENTITIES

It is World Relief’s practice that its overseas ministry programs may eventually become independent entities or be transferred to like-minded organizations. When the decision to transfer such assets is approved, World Relief records a liability for the net assets to be transferred and a corresponding charge to operations for the contribution.

CASH AND CASH EQUIVALENTS

World Relief considers cash and cash equivalents to include currency on hand, demand deposits with banks and short-term investments with maturities of less than three months when purchased.

INVESTMENTS

World Relief records investments in securities at fair market value with the resulting gains and losses reported in the statement of activity. The fair market value of investments traded on a securities exchange is determined based on quoted market prices for those investments.

PROPERTY AND EQUIPMENT

Property and equipment are capitalized at cost and depreciated over their estimated useful lives on the straight-line basis (buildings – 29 years, computer, office and other equipment – 3-8 years and vehicles – 5 years).

World Relief requires that long-lived assets and certain identifiable intangible assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of assets may not be recoverable. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount at which the carrying value of the assets exceeds the estimated fair value. Assets to be disposed of are reportable at the lower of the carrying amount or fair value, less the costs to sell.

World Relief receives various federal, state, city and private grants and contracts relating to refugee immigration, relief and disaster response. Property and equipment purchased through grants/contracts is capitalized in the period purchased. The property and equipment is retained by World Relief or returned to the grantor based upon the grant/contract.

September 30, 2021 And 2020

NET ASSETS

Net assets, revenue, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of World Relief and changes therein are classified and reported as follows:

Without Donor Restrictions– Net assets that are not subject to donor-imposed restrictions. Items that affect this category principally consist of income from cost reimbursement contracts; gifts without restrictions; and expenses associated with the core activities of World Relief.

With Donor Restrictions – Net assets subject to donor-imposed restrictions that will be met either by actions of World Relief or the passage of time. Expirations of restrictions on net assets with donor restrictions are reported as net assets released from restrictions.

CONTRIBUTIONS

World Relief recognizes contributions when cash, securities or other assets, and unconditional promise to give are received. Conditional contributions include donor-imposed conditions with one or more barriers that must be overcome before World Relief is entitled to the assets transferred or promised and there is a right of return to the contributor for assets transferred or a right of release of the promisor from its obligation to transfer assets. World Relief recognizes the contribution when the conditions are substantially met or explicitly waived. Unconditional contributions are classified as without donor restrictions unless there are donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose of the restriction is accomplished, net assets with donor restrictions are then classified to net assets without donor restrictions and reported in the statement of activities as “***net assets released from restrictions***.”

GOVERNMENT AND PRIVATE GRANTS

World Relief receives funding under various federal and state awards for direct and indirect program costs. Revenues from such awards are considered to be conditional contributions and are generally recognized as qualifying expenses are incurred. World Relief adopted the simultaneous release option for donor-restricted conditional grants that are recognized and used within the same reporting period, therefore, these amounts are reported as without donor restrictions. Balances outstanding on grants for which the conditions have been met are included in grants receivable and are expected to be collected within one year. Amounts received prior to incurring qualifying expenditures are reported as deferred revenue on the statement of financial position.

FEES FOR SERVICE

Revenue is recognized when control of the services provided is transferred to the customer in an amount that reflects the consideration that World Relief expects to be entitled to in exchange for those services. Revenue from contracts with customers is primarily comprised of servicing fees charged on the collection of transportation loans issued by the International Office for Migration (“IOM”) and for legal services provided to refugees. Fees for Service revenue is included in Other Income on the Statement of Activities.

September 30, 2021 And 2020

GIFTS IN-KIND AND VOLUNTARY SERVICES

GIFTS IN-KIND

World Relief receives in-kind goods for resettled refugees and for emergency interventions and other overseas programs. These resources are provided by refugee sponsors, churches, individuals and organizations. The value of in-kind contributions made to World Relief was \$3,105,868 in 2021 and \$3,094,090 in 2020. In addition, refugee sponsors and others often provide goods and services directly to resettled refugees; however, the value of these goods and services is not included in the financial statements.

VOLUNTARY SERVICES

Worldwide, volunteers account for a majority of the World Relief workforce, greatly multiplying the number of people reached by the organizations' global ministries. In many cases volunteers serve on the front lines of World Relief's programs, partnering with staff to increase the impact of services given. Approximately 75,000 people volunteered with World Relief during 2021 and 2020. The value of these services provided by these unpaid workers is not reflected in the financial statements because they do not meet the criteria for recognition.

FUNCTIONAL ALLOCATION OF EXPENSES

World Relief's costs of program and support activities have been summarized on a functional basis in the statement of activities and changes in net assets. The costs of certain multipurpose activities have been allocated based on level of effort among program and support ministry categories.

PRIOR YEAR INFORMATION

The financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such comparative information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such comparative information should be read in conjunction with World Relief's audited financial statements for the year ended September 30, 2020, from which the summarized information was derived.

RECLASSIFICATIONS

Certain reclassifications were made to the 2020 financial statements to conform to the 2021 presentation.

ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED

In 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The ASU changes the accounting treatment for operating leases by recognizing a lease asset and lease liability at the present value of the lease payments in the statement of financial position and disclosing key information about leasing arrangements. The ASU is effective for private entities for fiscal years beginning after December 15, 2021. Early adoption is permitted. The ASU should be applied at the beginning of the earliest period presented using a modified retrospective approach. World Relief plans to adopt the new ASU at the required implementation date.

NOTES TO FINANCIAL STATEMENTS – (Continued)

September 30, 2021 And 2020

In 2020, the FASB issued ASU 2020-07: Presentation and disclosure requirements by not-for-profit entities for contributed non-financial assets (Topic 958). Prior to this update, Topic 958 only specified requirements for the recognition and initial measurement of contributions and disclosure requirements pertaining to contributed services. Under the new guidance, not-for-profit organizations will be required to present gifts-in-kind as a separate component on their statement of activities and will require specific disclosures for certain quantitative and qualitative information about such non-financial assets. The amendments in this update are effective for periods beginning after June 15, 2021 and should be applied on a retrospective basis. World Relief plans to adopt the new ASU at the required implementation date.

(2) INVESTMENTS

At September 30, 2021 and 2020, investments consisted of the following:

	2021		2020	
	<u>Cost</u>	<u>Market</u>	<u>Cost</u>	<u>Market</u>
Certificates of deposit	<u>\$ 646,150</u>	<u>\$ 646,150</u>	<u>\$ 678,912</u>	<u>\$ 678,912</u>

(3) FAIR VALUE OF FINANCIAL INSTRUMENTS

World Relief utilized various methods to measure the year-end value of its investments. Generally accepted accounting principles establish a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are described below:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that World Relief has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing World Relief's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The inputs methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of September 30, 2021 and 2020, World Relief's investments were valued using level 2 inputs.

(4) RECEIVABLES - OTHER

Included in receivable – other on the statement of financial position is World Relief's 43% interest in a trust that was formed from the bankruptcy of a former agricultural loan program partner. Assets of the trust are primarily made up of one property that is being marketed for sale. The appraised value of World Relief's interest in the trust as of September 30, 2021 and 2020 is approximately \$620,000. However, due to uncertainties resulting from the economic crisis and socio-political outlook in the country in which this trust resides, management has placed a valuation allowance of approximately \$610,000 and \$213,000 on its interest as of September 30, 2021 and 2020, respectively.

(5) MINORITY INTEREST IN NET ASSETS

Minority interest in net assets represents World Relief's investment in microfinance institutions. World Relief's investment in Urwego Opportunity Bank ("**UOB**"), a for-profit bank extending services to the poor of Rwanda was 0.8% as of September 30, 2021 and 2020, and as such, is carried at cost. For the years ended September 30, 2021 and 2020, World Relief has a 44.3% investment interest in Turame Community Bank ("**Turame**"), a for profit microfinance institution extending services to the poor of Burundi. As of September 30, 2021 and 2020, World Relief has a 49.95% investment interest in IMF Hekima ("**Hekima**"), a for profit microfinance institution extending services to the poor in the Democratic Republic of Congo. Turame and Hekima are carried at fair market value using the equity method of accounting where World Relief records its share of net profit or loss each period. The carrying amount of these investments at September 30, 2021 and 2020 is as follows:

	<u>2021</u>	<u>2020</u>
UOB	\$ 49,030	\$ 49,030
IMF Hekima	980,405	844,236
Turame Community Bank	<u>693,057</u>	<u>641,659</u>
	<u>\$ 1,722,492</u>	<u>\$ 1,534,925</u>

Unrealized gains on these assets are reported in the statement of activities and changes in net assets as gain on minority interest in net assets.

(6) PLANT AND EQUIPMENT

The cost of property and equipment is as follows:

	<u>2021</u>	<u>2020</u>
Land	\$ 26,598	\$ 26,645
Buildings	1,640,069	1,646,485

(7) REFUNDABLE ADVANCE

On April 16, 2020, World Relief received a \$4,233,380 loan under the Small Business Administration's ("SBA") Paycheck Protection Program (the "PPP Loan"). World Relief considered this to be a conditional contribution as it expected to meet the criteria for loan forgiveness upon incurring eligible expenditures. During the year ended September 30, 2020, World Relief incurred eligible expenditures in excess of the PPP loan, however, due to uncertainty in the ultimate acceptance of its loan forgiveness application, recognized approximately \$3,175,000 as revenue (75%). During the year ended September 30, 2021, World Relief's application for forgiveness was accepted by the SBA, and as such, the remaining balance of the PPP Loan was recognized as revenue. The PPP Loan revenue is included in government and other public grants on the statement of activities and changes in net assets.

(8) DEBT

World Relief has a \$1,598,000 term loan with a bank bearing interest at the rate of 3.25% as of September 30, 2021. This loan requires monthly principal and interest payments with a balloon payment due in February 2026. The loan is secured by substantially all of the assets of World Relief.

The future maturities of this loan are as follows:

Year Ending September 30,

2022	\$ 92,848
2023	95,911
2024	99,075
2025	102,344
2026	<u>613,983</u>
	<u>\$1,004,161</u>

Interest expense, for the years ended September 30, 2021 and 2020 was approximately \$37,500 and \$79,000, respectively.

(14) FINANCIAL ASSETS AND LIQUIDITY RESOURCES

At September 30, 2021 and 2020, financial assets and liquidity resources available within one year for general expenditure such as operating expenses and grant expenses, were as follows:

Financial Assets	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 20,823,096	\$ 12,384,572
Investments – current	646,150	678,912

Less those unavailable for general expenditure within one year due to donor-imposed restrictions	<u>(6,612,956)</u>	<u>(3,164,193)</u>
Total financial assets available to management for general expenditure within one year	<u>\$ 22,313,733</u>	<u>\$ 17,324,647</u>

As part of World Relief's liquidity management, it has a practice to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due.

(15) CONTINGENCIES

In early 2020, an outbreak of a novel strain of coronavirus (COVID-19) emerged globally. This coronavirus has resulted in closing international borders, enhanced health screenings, healthcare service preparation and delivery, quarantines, cancellations, disruptions to the supply chains, as well as general public uncertainty. The future impact of COVID-19 is currently unknown, and it may exacerbate other risks that apply to World Relief including political, social and economic risks. The ultimate impact of COVID-19 on World Relief's operations is not reasonably estimable as of the date that the financial statements were available for issuance. World Relief will continue to monitor the effects of the COVID-19 pandemic and will adjust its operations as necessary.

In the ordinary course of operations, World Relief occasionally becomes involved in legal proceedings. While any legal proceeding or litigation has an element of uncertainty, management believes that the outcome of all current pending or threatened actions will not have a material adverse effect on the operations or financial condition of World Relief.

U.S. government grants and contracts are subject to audit by various governmental agencies. Management believes any potential disallowed costs would not be material to the financial statements.

(16) SUBSEQUENT EVENTS

Subsequent events after the statement of financial position date through the date that the financial statements were available for issuance, February 9, 2022, have been evaluated in the preparation of the financial statements.
