

## **GROCERY SHOPPING TRANSPORTATION**

**What grocery store should you go to?** Please choose the closest grocery store to the family's apartment (Aldis and Price Right are less expensive options. If halal meat is required, Price Right has a Halal section!)

**What does the family need to bring?** Cash provided by the Case Manager. If the family has food stamps, they can bring those as well (typically, the family will not have food stamps this early in their resettlement process).

**What should you do while grocery shopping?** Show the family around the store and how to pay at the register. If possible, point out the closest bus stop to their house/the grocery store!
