

paramount in ensuring continued access to quality services. We work with local staff and volunteers to develop their capacity as agents of change even beyond specific project interventions.

Safeguarding: Humanitarian services must be provided free from compulsion, ensuring the dignity, equity, and inclusion of all affected populations without inflicting any further harm. WRSS has established an elaborate complaints and feedback mechanism through which project participants and stakeholders can provide feedback and hold WRSS accountable for in-service delivery.

Ownership and sustainability: WRSS strives to ensure services outlast the intervention period in all interventions. This is achieved by seeking buy-in from the project participants and stakeholders. Working with local human and physical resources ensures sufficient local capacity for agency beyond project life. The involvement of stakeholders and project participants is at the heart of all our project interventions.

Why We Are a Trusted Partner for Service Delivery

✓ Our vision, mission, and values are focused on providing service to the most vulnerable, guided by the humanitarian principles of humanity, neutrality, impartiality, and independence.

✓ We have extensive experience and expertise in delivering humanitarian and development programs in South Sudan with proven results and impact. We have been operating in South Sudan since 1998, and various donors, including UN agencies, USAID, and private donors, have funded us.

✓ We have a strong presence and network in several states, including some of the most hard-to-reach and conflict-affected areas. Our dedicated and professional staff consists of over 400 people, and we work closely with local communities, authorities, and partners to ensure the quality and sustainability of our interventions.

✓ We employ an integrated multi-sectoral approach to holistically provide for the needs of the targeted population while being accountable to the affected populations, safeguarding the vulnerable and causing no harm in service delivery. We also work along the triple nexus of humanitarian, peacebuilding and development continuum, focusing on the most vulnerable segments of society.

✓ We are flexible and adaptable to the changing context and needs of the people we serve. We can respond timely and effectively to emergencies and provide long-term solutions for recovery and resilience.

MISSION

At World Relief, our mission is to boldly engage in the world's greatest crises in partnership with the church.

VISION

We envision thriving, welcoming communities where families flourish and people experience restorative relationships with God, their neighbors, themselves, and all of creation.

OUR FOCUS

Engaging Communities in Crisis

Building Communities of Resilience

Supporting Communities on the Move

Creating Communities of Welcome

Who We Are

World Relief South Sudan (WRSS) is a global Christian humanitarian organization that has been working with local communities in South Sudan since 1998. We partner with local churches and community leaders to provide sustainable solutions to some of the world's biggest problems, including disasters, extreme poverty, violence, oppression, and mass displacement. Our mission is to empower the local church to support the most vulnerable, and our vision is to bring hope, healing, and transformation to those in need.

What We Do

WRSS's current programming focuses on the intersection of humanitarian aid, peacebuilding, and development, with an emphasis on assisting the most vulnerable segments of society. Our approach integrates multiple sectors to comprehensively address the needs of the targeted population while being accountable to the affected communities, protecting the vulnerable, and ensuring that our services do not cause harm.

Our sectoral programming interventions include:

FOOD SECURITY:

We are dedicated to implementing specific strategies to combat food insecurity and empower communities to build resilience and sustainable livelihoods. Our focus includes providing top-quality agricultural inputs, enhancing farming capabilities, developing value chains, and enabling access to finance through the Savings for Life approach, financial literacy, and micro-enterprise development

HEALTH & NUTRITION

We provide life-saving health and nutrition interventions through Primary Health Care Centres (PHCC) or Primary Health Care Units (PHCU), Outpatient Therapeutic Programmes (OTP), Targeted Supplementary Feeding Programmes (TSFP), and Mother-Infant and Young Child Nutrition interventions (MIYCN). We also support maternal and child health care and family planning programs, collaborating with local clinics and training community health workers and care group members.

WATER, SANITATION AND HYGIENE

We strive to expand access to clean water by implementing and revamping water infrastructure while imparting knowledge on location-specific water treatment and storage techniques. In addition, we actively encourage improved sanitation and hygiene practices by facilitating the construction of latrines and handwashing facilities, orchestrating door-to-door campaigns, and spearheading community WASH initiatives.

PEACE BUILDING AND PROTECTION

We are involved in peacebuilding efforts in Unity State in collaboration with UNDP and the United Nations Multi-Partner Trust Fund. We are part of a consortium comprising five agencies, including UNMISS, the International Rescue Committee, and three national organizations. Our goal is mitigating underlying conflict factors for stability and improved livelihoods. We also focus on enhancing the capacity of judicial and auxiliary agencies to implement peaceful conflict resolution measures. Additionally, we provide resilience interventions that promote social cohesion, offer peace dividends, and make a return to war more costly.

CIVIL SOCIETY EMPOWERMENT:

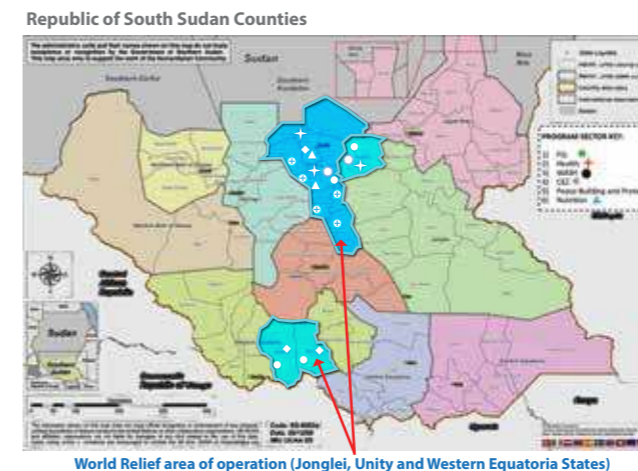

We recognize civil societies' power and influence on communities, build their capacity, and empower them through leadership development and training. We also work with leaders to identify and address urgent community needs through programming that emphasizes disaster preparedness and response.

Our Donors

We are incredibly grateful for the support of our generous donors, who have helped us meet the population's needs. Our esteemed donors, including USAID, UNDP, UNICEF, WFP, UNOCHA, WHO, and Private donors, have provided the vital funding that enables us to deliver essential services to the most vulnerable members of our community. Their unwavering support has truly made a difference in the lives of those we serve.

Where We Work

WRSS operates in some of the hardest-to-reach areas with limited accessibility due to conflicts, environmental shocks, or limited physical infrastructure. We have a strong presence and network in several states, as shown on the Map below:

Our Human resources

We have a wide array of staff, from the country office to the field locations. In total, we have 451 National staff & 10 International staff Six (6) Offices: Koch, Fangak, Bentiu, Leer, Maridi, Ibba and Juba country office. These dedicated individuals bring a wealth of expertise to deliver services to the vulnerable community with unwavering passion and commitment.

How We Work

WRSS follows these implementation strategies to ensure the quality and sustainability of our interventions:

Community mobilization and empowerment: We work with the most salient civil society institutions in each community, often but not exclusively churches, to create and maintain deep linkages with their members and serve the most vulnerable. We form committees for peacebuilding, SGBV, AFS, and savings within each community empowerment zone to mobilize volunteers and outreach workers to deliver services, educational messages, and referrals.

Localization Strategy: We emphasize localization, where local structures and organizations are given prominence in project implementation. We empower grassroots organizations as agents of change to take over interventions from WRSS and ensure sustainability throughout our operations.

Partnerships and collaboration: As an implementation strategy, we partner with UN agencies, INGOs, NGOs, and line government ministries and agencies. This strategy helps us ensure efficiency and effectiveness in service delivery as we leverage organizational competency, avoid duplication, and coordinate with other stakeholders.

Building Local Capacity: Given the volatile nature of most of our programming zones, building local capacity is
