

# CONVERSATION STARTERS

While it can sometimes be intimidating to engage with speakers of other languages, these are great opportunities to engage in meaningful conversations that can build lifelong friendship. Simple language and gestures are also forms of communication and silence and awkward pauses are completely ok! Remember that language learning can go both ways. Ask to learn some words in the language spoken by the family you are with. Make it fun and be able to laugh at yourself. Not only will this help encourage the family to feel comfortably, it will help build friendships.

## **Food:**

1. Is your country famous for a special crop/food?
2. What is a normal breakfast, lunch, dinner, snack, and dessert for you?

5. Are parents strict in disciplining their children?

**Other:**

What can people do to help refugees in their community and around the world?

What do you want people to know about refugees?

\*Please be mindful that many refugee families have experienced violence and loss so please do not push a family to speak of something that was traumatic for them. Let them lead into more difficult conversations and remember to be an active listener and a safe place for them to speak about difficult experiences. Please also remember that these are their stories and that they should remain confidential unless the family chooses to share them
