

FREE AND AFFORDABLE BICYCLES

Transportation can often be one of the biggest challenges for newly arriving families. Bicycles serve as an excellent mode of transport and can be obtained for free or at a much lower cost compared to new ones.

Cycles 4 Hope Partnership

Cycles 4 Hope (C4H) collaborates with World Relief Sacramento to provide complimentary bicycles and repairs to families in need. However, WRS only receives a limited number of bicycles each month, so families should notify their WRS Caseworker to be added to the waiting list. Please note that C4H is currently offering bikes only for adults. To assist a family in applying for a free bike, visit the Cycles 4 Hope website.

Affordable Repairs and Options

For budget-friendly bicycle repairs, check out the Sacramento Bicycle Kitchen website

Craigslist

It is an excellent platform for finding inexpensive bikes for both adults and children. It also presents a valuable opportunity to learn how to navigate the website for purchasing second-hand items within the community.

Local thrift stores

are another great resource for discovering used bicycles and other household items.
